QUICK GUIDE

MAGNETIC USB CHARGING CABLE FOR POLAR WATCHES

1 m USB cable with a magnetic charging plate for Polar Pacer, Pacer Pro, Ignite 3 and Vantage V3 watches. Plugging in, safety and troubleshooting on one page.

REF. CABPOLAR1 · POLAR PACER, PACER PRO, IGNITE 3, VANTAGE V3 · USB 5 V / 1 A, 1 M, 18 G

Before plugging in

The charging plate lies flat on the back of the watch, over the charging contacts; two magnets hold it and line it up, so charging does not stop at the slightest movement. A voltage regulator and protection against overvoltage and overcurrent look after the watch battery. The cable bends to 180° and is tested for more than 6,000 cycles.

Charging

1. **Plug the USB end** into a 5 V / 1 A USB port: computer, power bank or standard charger.
2. **Wipe the contacts** on the back of the watch and on the plate with a dry cloth: no sweat, no sand, no moisture.
3. **Lay the plate** on the back of the watch, gold contacts against the case: the magnets pull it in and centre it. If it pushes away, turn it over.
4. **Check the screen** of the watch: it must show that it is charging. Stay nearby during the first charge.
5. **Detach the plate** once charging is complete, holding it between two fingers, never by pulling on the cable.

The plate lies flat on the back of the watch, over the charging contacts.

Compatible watches

- Polar Pacer and Pacer Pro.
- Polar Ignite 3.
- Polar Vantage V3.

Specifications

Length	**1 m**	Plug	**USB**
Connector	**Magnetic**	Power	**5 V / 1 A**
Materials	**ABS + PVC, copper**	Weight	**About 18 g**

ELECTRICAL SAFETY

- 5 V / 1 A USB port only: no phone fast charger.
- Never charge a wet watch: dry it first, contacts included.
- Split jacket, exposed wires, plate getting hot: discard the cable.

IF IT DOES NOT CHARGE

- Dirty or damp contacts: clean them with a dry cloth.
- Plate the wrong way round or off-centre: the magnets must pull it in and centre it by themselves.
- Weak source (USB port on a keyboard or monitor): try a wall charger.
- Watch not in the list: the contacts are not in the same place.
