QUICK GUIDE

AERO SOCKS, WHITE

Road and time trial cycling socks: ribbed leg over the calf, breathable knit foot, silicone band at the cuff. Sizing, first wash, putting them on and care.

SHOE SIZES 37 TO 47, THREE SIZES · NON-SLIP SILICONE BAND · POLYESTER, NYLON, ELASTANE

Before your first ride

1. **Pick your size** from your EU shoe size: 37-41, 42-44 or 45-47. The fit is close and stretchy.
2. **Wash them once** before wearing: the silicone band may arrive coated with an anti-stick powder, and washing restores its grip.
3. **Pull on the foot** with the leg turned down to the heel. Seat the Y-shaped heel on your heel and the toes fully in, with no creases.
4. **Roll up the leg** over the calf with both hands, without pulling on the cuff.
5. **Line up the ribs** straight and vertical, with no twist. The silicone band lies flat on dry skin.

Care

- Machine wash at 40 °C, delicate cycle, socks turned inside out.
- No tumble drying, no bleach, no dry cleaning. Air dry.
- No need to iron; if you must, low temperature only.

Specifications

Sizes	**37-41, 42-44, 45-47**	Leg	**92 % polyester, 8 % elastane**
Foot	**97 % nylon, 3 % elastane**	Cuff	**Inner silicone band**
Foot	**Y heel, reinforced arch, seamless toe**	Colour	**White**

IF SOMETHING GOES WRONG

- **They slip**: wash them if not yet done, place the band on dry skin, free of cream.
- **The leg twists**: put them on again from the heel and line up the ribs.
- **The white turns grey**: wash with whites only, no bleach.
