FITTING GUIDE

SET OF 2 WATERPROOF CAR SEAT COVERS

Two breathable polyester covers that slip over the headrest and cover the backrest and seat, so you can sit down in sweaty, damp or sandy sports clothes without soiling the seat. Fitting, care and precautions on one page.

REF. HOSIEG2BLCK · FRONT AND REAR SEATS, UNIVERSAL · BREATHABLE POLYESTER, BLACK, SET OF 2

Before fitting

Each cover goes on in seconds, without tools: the top forms a pocket that slips over the headrest, the rest falls over the backrest and seat. The non-slip face keeps it in place, on a standard seat as on a bucket seat. Two covers: both front seats, or one in use and one spare.

Fitting a cover

1. **Unfold the cover** and find the headrest pocket at the top.
2. **Slip the pocket** over the headrest, all the way down, elastic edge at the bottom.
3. **Run the cover down** the backrest, smoothing it, then spread the seat section to the front edge of the seat.
4. **Check before driving** that the seat belt, its buckle and the seat controls are free, then sit down: the cover must not slide.
5. **Take it off after the trip** if it is damp: let it dry before rolling it up and storing it in the boot or glovebox.

Care

- Washable: by hand, in lukewarm water with a little mild detergent; rinse well.
- Dries quickly in the air, hung up or flat; no radiator, no tumble dryer.
- Store it dry: put away damp, it picks up the very smell it is meant to prevent.

Specifications

Quantity	**2 covers**	Material	**Breathable polyester**
Colour	**Black**	Protection	**Waterproof, anti-odour, non-slip**
Fitting	**No tools**	Care	**Washable**

IN THE CAR

- The cover must never get in the way of a seat belt: strap and buckle stay accessible, nothing goes over them.
- Seat with a side airbag built into the backrest: the cover must not cover the side it deploys from.
- Never under a child seat: its anchors and belt must bear directly on the car seat.

GOOD TO KNOW

- The cover helps keep sweat and moisture off the seat; wring out soaked clothes before sitting down.
- On a rear bench, the pocket slips over the headrest of the chosen place; the cover protects one seat, not the whole bench.
