FITTING GUIDE

# WATERPROOF TOWEL SEAT COVER FOR THE CAR

Breathable polyester cover that slips over the headrest and covers the backrest and seat, so you can get back in the car after sport, the pool or the beach without wetting or soiling the seat. Fitting, care and precautions on one page.

**REF. HOSIEGVOITBLCKV2** · FRONT AND REAR SEATS, UNIVERSAL · BREATHABLE POLYESTER, WATERPROOF, WASHABLE

## Before fitting

The cover goes on in seconds, with nothing permanent: the top forms a pocket that slips over the headrest, the rest falls over the backrest and seat. The non-slip face keeps it in place, on a standard seat as on a bucket seat. Rolled up, it waits in the boot or a storage pocket and only comes out when needed.

## Fitting the cover

1. **Unfold the cover fully** and find the headrest pocket at the top.
2. **Slip the pocket** over the headrest, all the way down, elastic edge at the bottom. On a seat without a separate headrest, fit it around the top of the backrest.
3. **Run the cover down** the backrest, smoothing it, then spread the seat section to the front edge of the seat.
4. **Fasten the side strap** behind the backrest: it stops the cover riding up when you sit down.
5. **Check before driving** that the seat belt, its buckle and the seat controls are free, then sit down: the cover must not slide.

*The pocket slips over the headrest, elastic edge at the bottom.*

## Specifications

| | | | |
|---|---|---|---|
| Material | **Breathable polyester** | Protection | **Sweat, moisture, hair** |
| Properties | **Waterproof, anti-odour** | Fitting | **Quick, removable** |
| Storage | **Rolls up** | Contents | **1 cover** |

**IN THE CAR**

- The cover must never get in the way of a seat belt: strap and buckle stay accessible, nothing goes over them.
- Seat with a side airbag built into the backrest: the cover must not cover the side it deploys from.
- Never under a child seat: its anchors and belt must bear directly on the car seat.

## Care

- Washable: by hand, in lukewarm water with a little mild detergent; rinse well.
- Let it dry completely in the air before folding or rolling it: put away damp, it holds odours.
- Wring out soaked clothes before sitting down: the cover blocks sweat and moisture, not a puddle.
