FITTING GUIDE

REAR SEAT HAMMOCK COVER FOR DOGS

145 × 135 cm Oxford fabric sheet that hangs as a hammock between the front and rear headrests, or lies flat on the rear bench: mud, hair and scratches stay on the sheet. Fitting, care and safety on one page.

REF. HOVOITBACK · REAR BENCH: CARS, SUVS, 4X4S, PICK-UPS · REINFORCED OXFORD FABRIC, 145 × 135 CM, ADJUSTABLE STRAPS

Before fitting

Four adjustable straps with clips are sewn to the corners of the sheet. As a hammock, the two front straps hook onto the front seat headrests and the two rear ones onto the bench headrests: the sheet closes the gap down to the floor and also protects the back of the front seats. Flat, only the rear straps are used and the front of the sheet hangs down in front of the seat.

Fitting as a hammock

1. **Unfold the sheet** on the rear bench, straps towards the headrests.
2. **Hook the rear straps** around the bench headrest posts and clip them.
3. **Hook the front straps** onto the front seat headrests, then adjust their length: the sheet forms a hammock without pulling on the seats.
4. **Settle the dog** in its harness, tethered to the seat belt or an anchor point; the openings in the sheet let the buckles through.
5. **Check before driving** that the straps hold, the front seats can still be adjusted and nothing gets in the driver's way.

Care

- Shake the sheet out outside, then a sponge or damp cloth is enough for hair, mud and water.
- Let it dry open before folding it: put away damp, it goes mouldy.
- Folded in the boot, it is ready for the next outing.

Specifications

Dimensions	**145 × 135 cm**	Material	**Reinforced Oxford fabric**
Fixing	**4 straps with clips**	Vehicles	**Car, SUV, 4×4, pick-up**
Protection	**Scratch and dirt resistant**	Care	**Sponge or cloth**

YOUR DOG AND YOU

- The cover is not a restraint: the dog travels tethered, with a harness linked to the seat belt or an anchor point, never by the collar.
- As a hammock, no passenger in the back: the sheet covers the seat belts and their buckles.
- The cover must never get in the way of a seat belt in use, an airbag or the anchors of a child seat.

GOOD TO KNOW

- The straps hook onto headrests only: on a seat without an adjustable headrest, the hammock position is not possible.
- Claws and mud stay on the sheet, smells do not: air the car after the trip.
