FITTING GUIDE

SADDLE RAIL BOTTLE CAGE EXTENSION

West Biking mount that fits under the saddle to carry one central bottle cage or two side cages. Fitting, set-up and checks.

REF. PORTBO1 · 1 OR 2 BOTTLE CAGES · ABOUT 75 G

In the box

- The West Biking extension, one single piece, with threaded inserts for the bottle cages.
- 2 fixing screws and 2 nuts.
- Bottle cages and bottles are not included.

Fitting

1. **Offer up the extension** under the saddle, arm pointing forwards against the rails, upright mount behind the saddle.
2. **Fix it to the rails** with the supplied screws and nuts. Tighten gradually, extension straight, without forcing.
3. **Pick the layout** that suits the ride: one cage centred at the back, or two cages on the sides.
4. **Screw on the cages** into the matching threaded inserts, then slide in the bottles.
5. **Check the assembly** by shaking it: it must not turn or wobble. Pedal while stationary: nothing touches the wheel or your thighs.

Optional: a small bag

Thread hook-and-loop straps through the pre-drilled holes in the extension to attach a small bag.

If something goes wrong

SYMPTOM	LIKELY CAUSE	FIX
Extension turns on the rails	Loose screws	Retighten both screws, extension straight
A cage works loose	Cage screws loose	Retighten them and check after every rough ride
A bottle rubs the wheel or your thighs	Low saddle, bottle too large	Switch to the single layout or use a shorter bottle
Bottles hide the rear light	Light fitted under the saddle	Move the light lower down the seatpost

Double layout: two bottle cages on the sides.

Specifications

Mounting	**Standard rails**	Bottle cages	**1 or 2**
Material	**PC, one piece**	Weight	**About 75 g**
Hardware	**2 screws, 2 nuts**		

ON THE ROAD

- Check the fixing before every ride, especially after a rough track.
- The bottles must not hide your rear light or reflector.
- Reach for a bottle behind you on a straight, clear stretch.
