QUICK GUIDE

SEMI-RIGID GLASSES CASE, MOLLE AND CARABINER

1000D nylon case stiffened by an acrylic plate, lined with velvet, with a double zip: it rides on a bag or belt by its Molle straps or its carabiner and keeps glasses safe from crushing. Use, attachment and care on one page.

REF. SPHOLUNBLCK · SUNGLASSES, SPORTS, MOTORCYCLE AND READING GLASSES · 16 × 8 × 6 CM, 140 G

Before you start

The inside measures about 15.2 × 6.3 cm: most sunglasses and sports glasses fit with the arms folded; a very wide or very tall frame strains the zip. On the back, two Molle straps that open; on top, a swivel clip sewn onto a webbing loop; on the front, a hook-and-loop patch for a badge.

Storing and attaching

1. **Open the case** by pulling both sliders by their cords, right to the end of the flap.
2. **Put the glasses in** arms folded, lenses towards the velvet at the bottom, never against the zip. A microfibre cloth slips in on top.
3. **Close** by bringing the two sliders together without forcing: if it jams, the glasses are badly placed or too big.
4. **Attach with Molle** open each strap on the back, weave it through the webbing of the bag or belt, alternating case and carrier, then close it again. Pull: the case does not move.
5. **Or clip it on** by its swivel clip, to a bag strap or ring: open the clip, hook the strap, close it. The clip stays at the top, the case hangs zip downwards.

Specifications

Outside	**16 × 8 × 6 cm**	Inside	**About 15.2 × 6.3 cm**
Weight	**About 140 g**	Materials	**1000D nylon, acrylic, velvet**
Attachment	**Molle, carabiner**	Contents	**1 case, 1 carabiner**

Hung by its swivel clip from a backpack strap.

GOOD TO KNOW

- Semi-rigid: the case takes the weight of a bag or a fall, not a wheel running over it or someone sitting on it.
- The carabiner carries the case and its glasses, nothing else: no climbing, no load.
- Clean with a damp sponge, air dry open. No washing machine or tumble dryer. Grit in the zip: brush it out before forcing.
