FITTING GUIDE

SWEAT COVER WITH PHONE POUCH

Strip of terry fabric stretched between handlebar and saddle that catches sweat before the frame and the floor on an indoor trainer, with a clear pouch for your smartphone. Fitting, adjustment and care on one page.

REF. TO1 · ROAD AND MTB, STANDARD FRAMES · TERRY FABRIC, 56 × 20 CM

Before fitting

The wide end of the cover carries two hook-and-loop tabs and the phone pouch; the narrow end finishes in a strap with a slider buckle. Fit it with the bike already on the trainer, cables and levers clear.

Fitting the cover

1. **Fix the wide end to the handlebar** pouch facing up: one hook-and-loop tab around the bar on each side of the stem, pulled tight.
2. **Stretch it towards the saddle** pass the narrow strap around the seatpost, under the saddle, and bring it back through the slider buckle.
3. **Set the tension** by pulling the strap: the cover should be taut above the top tube without touching it.
4. **Slide the phone in** through the opening at the back of the pouch, screen against the clear window, and check that the screen responds to your finger.
5. **Check before pedalling** knees and thighs pass without rubbing, brakes and controls stay free, the cover does not slip.

Wide end at the handlebar with the phone pouch, narrow strap towards the seatpost.

Specifications

Bikes	**Road and MTB**	Material	**Terry polyester**
Layers	**Double**	Size	**56 × 20 cm**
Colour	**Black and red**	Fixing	**Tabs and buckle**
Pouch	**Touch window**	Contents	**1 cover**

SAFETY

- Indoor accessory: take the cover off before riding on the road.
- The pouch protects the phone from sweat, not from immersion: do not leave the cover soaked with the phone inside.
- Check the hook-and-loop tabs before every session: a cover that comes loose drops into your legs. Out of children's reach.

Care

- After every session, take the phone out, unhook the cover and air dry it. Hand wash in warm water and mild soap; no bleach or tumble dryer.
- Wipe the frame under the cover: salt from sweat attacks metals and lacquers.
