QUICK GUIDE

FOLDING FOAM SIT MAT

Ground cushion in waterproof Oxford fabric, filled with foam, that folds up like an accordion and is held by its elastic band. It keeps you off damp, dirty and cold ground when hiking, camping or picnicking. Use and care on one page.

REF. TAPISPLIANOIR · HIKING, CAMPING, PICNICS, FISHING · 39 × 28.5 × 0.8 CM

Before use

Unfolded, the mat measures 39 × 28.5 × 0.8 cm: room for one seated person on a layer of foam. The foam panels are sewn into an Oxford fabric that stops ground moisture coming through. A sewn-in elastic band keeps it folded, and a loop lets you hang it from a bag.

Unfold, sit, fold

1. **Free the elastic band** by sliding it off the folded pack.
2. **Unfold the mat** accordion-style and lay it flat, Oxford face on the ground, clearing away stones and sticks that could pierce the fabric.
3. **Sit down** in the centre of the mat. On sloping or wet ground, check that it does not slide before settling in.
4. **Shake and wipe** the ground face before folding: soil and pine needles scratch the fabric if they stay trapped inside.
5. **Fold it up** panel on panel, then slip the elastic band around the pack. Hang it outside the bag by its loop, or slide it into a pocket.

Specifications

Dimensions	39 × 28.5 × 0.8 cm	Tolerance	± 1 cm
Material	Polyester, cotton	Surface	Oxford
Filling	0.8 cm foam	Contents	1 mat

Folded accordion-style and held by its elastic band, ready to slip into a bag.

GOOD TO KNOW

- The mat insulates one seated person: it is not a sleeping pad or a mattress for sleeping on the ground.
- Keep it away from the campfire, stove and embers: foam and polyester melt.
- Clean with a sponge and soapy water, dry flat in the shade. No washing machine or tumble dryer.
- Store it dry and folded, out of the sun: the fabric fades and stiffens in full sun.
