QUICK GUIDE

WEST BIKING WHITE ICE BLUE CYCLING GLASSES

Sports glasses with a wraparound polycarbonate lens, UV400 protection and a TR frame of about 34 g. Fitting, precautions and lens care.

REF. WBGLASSBLUE · UV400, 17 % TRANSMISSION · TR FRAME, ≈ 34 G

In the box

- The glasses, with wraparound lens and silicone nose pads.
- A hard case, a carry pouch and a cleaning cloth.
- A safety lanyard and the product certificate.

Fitting the glasses

1. **Hold the glasses by the frame** never by the lens: fingerprints spoil your vision.
2. **Check the nose pads** they are removable: push them firmly into their seats.
3. **Adjust the temples** to one of the three positions, the same on both sides. They should hold without pressing behind your ears.
4. **Try them with your helmet** the temples must not catch on the shell or straps.
5. **Attach the lanyard** to the temple tips to take the glasses off on the move without losing them.

Specifications

Lens	**Polycarbonate HD Coated**	Protection	**UV400**
Transmission	**17 %**	Frame	**TR, beige**
Weight	**≈ 34 g**	Outer / inner width	**155 / 150 mm**
Lens width	**145 mm**	Lens height	**55 mm**
Bridge width	**42 mm**	Temples	**135 mm**

SAFETY

- Tinted lens, 17 % light transmission: do not wear at night or at dusk.
- In a tunnel or dark woodland, slow down while your eyes adjust.
- Even with UV400, never look straight at the sun.

Care

- Rinse the lens with clean water, then wipe it with the cloth. No solvent or abrasive.
- Store the glasses in their case, never lens down on a surface or in the sun behind a windscreen.
