QUICK GUIDE

WEST BIKING WRAPAROUND SPORTS GLASSES

Glasses with a purple wraparound lens, UV400 protection and a light TR frame with adjustable arms. Adjustment, wearing, care and precautions.

REF. WBGLASSPURPLE · UV400, 17 % TRANSMISSION · TR FRAME, ≈ 34 G

In the box

- The glasses, silicone nose pads fitted.
- A hard case, a carry pouch and a cleaning cloth.
- A safety lanyard and a product certificate.

Before your first ride

1. **Adjust the arms** using their three positions at the hinge, one notch at a time, without forcing: a firm hold, no pressure on the temples.
2. **Check the nose pads** are pushed fully home and the lens touches neither your cheeks nor your eyelashes.
3. **Try them in position** on the bike, head up: the top of the lens must not cut your view, and the helmet must not press on the arms.
4. **Fit the lanyard** over the arm tips if you often take the glasses off on the move.
5. **Store them** in the pouch day to day, in the hard case when travelling.

If something goes wrong

SYMPTOM	LIKELY CAUSE	FIX
Glasses slip down	Arms too wide, nose pads not pushed home	Move to the tighter notch, push the pads back in
Pressure on the temples	Arms too tight	Move to the wider notch
Helmet presses on the arms	Arms tucked under the straps	Wear the arms over the straps
Fogging when stopped	Warm, damp air after effort	Ride on or wipe with the cloth
Smears after cleaning	Dirty cloth, lens wiped dry	Rinse the lens, wash the cloth

Specifications

Frame	**TR, beige**	Lens	**Polycarbonate HD Coated, purple**
Protection	**UV400**	Transmission	**17 %**
Weight	**About 34 g**	Arms	**3 positions, 135 mm**
Outer / inner width	**155 / 150 mm**	Nose bridge	**42 mm**
Lens width	**145 mm**	Lens height	**55 mm**

ON THE ROAD

- Dark lens (17 % light transmission): do not wear it at night or at dusk.
- In a tunnel or dark woodland, slow down: the eye adjusts more slowly.
- Even with UV400, never look straight at the sun.

CARE

- Rinse the lens with clean water before wiping: dry dust scratches.
- Dry with the cloth; no tissue, clothing, alcohol or glass cleaner.
- Put them down arms first, never on the lens, nor in the sun behind a windscreen.
